TWO LOCAL
BOYS MISSING
FROM HOMES

The whereabouts of two teenagers, Marvin King, 14, who has been living with the Darrell Manhart family, west of Mokena on Francis road, and Richard Tomany, 15, who lives on Storm road, are being sought since they left home on Sunday morning. At first it was thought they had met with an accident as they left ostensibly to go fishing in Hickory creek. Their disappearance was reported to the sheriff's office and it was later learned that they were seen to be thumbing a ride east on route 30, about 12:30 p.m. Sunday.

Richard Tomany, who lives with his father, sisters and brothers on a forty acre farm tract, left the Manhart farm on a tractor belonging to his father, Lloyd Tomany, and Marvin was found abandoned near the Schmuhl school on route 30, about 2 1/2 miles east of New Lenox. "Dick's" father had purchased it for him and said he could think of no reason why his son would run away. He is a sophomore at JTHS and a good student. Mr. Tomany is employed and also farms the 40 acres.

Marvin, who came from the Child Welfare home in Chicago, has been living with the Manharts since November, 1949. He attends the Francis school where he had finished the 6th grade. He is about five feet, five inches tall and weighs about 125 pounds, has brown hair and eyes and freckled and one hand is covered with warts. He was wearing blue jeans, a striped blue and white T shirt, black work shoes and no hat. He had a chipped front tooth.

Richard is five feet, five inches tall and weighs about 125 pounds, has sandy red hair, brown eyes, and a mark on the back of his right shoulder. He was wearing blue jeans, a white shirt, brown oxfords and no hat. Both were carrying cowboy boots.

Under The Cross
Of Malta

Service. Sometime ago our Post was sent a circular from National Headquarters, VFW, containing suggestions as to a post can do in line of community service. What happened? Were we vetoed out of the community service contest just because a chairman pocketed the circular?

Perhaps we are supposed to wait to see what other organizations are going to do, and grab feebly for some of the credit.

It is my opinion that there are many fields of service we can do that won't cost us any money, which we do not have. We can act in conjunction with the Red Cross to work out a program of preparedness. Or, we can give blood to those poor fellows in hospitals who are dying for the need of blood. There is work to be done that is strictly for veterans' welfare.

Anything is better than allowing rigor mortis to set in, or to be like "Old Soldiers" and just fade away.

We are going to have a circus on July 21 asked to sell tickets in advance. We have a guarantee to meet and the only way we can do it is to push the sale of tickets. The show will be well worth the nominal price of admission. These tickets will be placed in your hands within the week and you can get busy.—Eino L. Saarela, publicity.

Mokena News-Bulletin
Mokena, Illinois
Dear Editor:

The Pioneer cemetery looks very nice this summer, thanks to the Civic Club. I wish to apologize to them for trying to place the credit elsewhere. My information was wrong as you have pointed out.

And, my dear Beauregard, I do not object to grass. I think it looks nice when it is kept mowed. But for a diet, it's not to my liking. Corn is much more to my liking, and dear boy, you can dish it out!

I wish I had time to fix some lemonade for the fellows, who mow the cemetery, but I am much too busy poking my nose into other affairs. You understand, don't you?

At any rate, you fellows are doing a wonderful job! Every citizen in Mokena should thank you.

Sincerely,
ElsieCub Fans Win

Members of the committee in Mokena are Mrs. Margaret O'Brien, postmaster, chairman; Mrs. Hugo Neithammer, treasurer and Mrs. Margaret M. Semmler, member.

It is not necessary to say much about Lawrence Kohl who has lived all his life in the Mokena community. He is a member of the Mokena grade school board of directors, in which capacity he has served for the past 18 years. He has been, together with Mr. Krusemark and Mr. Bovee, untiring in efforts to make possible the best high school for children in this area.

Mr. Robinson at New Lenox, has served most satisfactorily on the grade school board in New Lenox where he has lived for some years. He is employed by the Illinois Bell Telephone company.

Tinley Teens Head "Y" League By "Squeebster"

The Tinley Park Sportsmen B team won its fourth straight YMCA league game Friday by rolling over North Harvey A. C. 9 to 0. Chucker Jim Tomlinson hurled a brilliant 1 hitter while Tinley mixed six hits with seven walks and three Harvey errors for their nine runs.

Harvey was late in arriving so the game lasted but four innings as darkness set in early.

Tinley started off with two runs in the first inning, but picked the second inning for its big surge of seven more. Ken Webster was safe on a two base error by the third baseman, Bob Fremder walked, Don Goesel promptly doubled both runners home. As Bill Kunzer was being walked, Goesel stole third and then home. That made it 5 to 0, but Gerry Hug walked moving Kunzer to second, Bob Cupp then singled loading the bases.

After Jack Tomlinson whiffed Jim Tomlinson walked forcing in another run. Paul Jeffords singled driving run number seven. The runners advanced on a passed ball and Ken Webster then singled to right to make the score 9 to 0.

"Just Been Thinkin'"

A summer vacation can turn an average man into a philosopher, changing his opinion of an old homestead with its commonplace embellishments into a florescent garden of bewitching beauty. That is exactly what happened to an old friend of mine who journeyed over the Rockies just to see for himself the trees which tower two hundred feet into the air...

THE REDWOODS

A farmer visited the Coast And saw sequoias span The gulf between the earth and sky:

A thrill for any man!

But he was silent and he seemed Not overly-impressed— He puffed his pipe and frowned upon

The wonders of the West.

A Californian stood near And, just to praise his state, Observed aloud: "I've never seen A tree that's half as great!"

The farmer drawled "It's not for me! My trees are ten feet tall But you should see the apples that I get from them in Fall!"

Priceless "Freedom Train" Documents Available to Public

Remember the Freedom Train with its collection of priceless documents on which our nation's independence, strength and greatness have been built? The Freedom Train itself has been disbanded and its precious cargo returned to the libraries, historical societies, private collections and government archives from which these original papers were loaned.

Now, feeling that the need for an intimate knowledge of these documents is more imperative to Americans than ever before because of recent history-shaking events and the perilous world conditions our country faces, Harvey Federal Savings and Loan Association is making available to the public the purchase of a complete collection of 42 facsimile reproductions of the actual documents carried by the Freedom Train. Presented in portfolio form—with each document individually set and suitable for framing—the cost per set is \$1.50. This figure, representing the actual cost to Harvey Federal Savings, is made possible as a non-profit service to the public.

Each portfolio contains authentic replicas of such historical items as: Jefferson's original rough draft of the Declaration of Independence; Lincoln's Gettysburg Address in his own handwriting; the last message from Corregidor, interrupted when the Japanese broke into the wireless room; the original United Nations' Charter with signatures of all participants; the original Japanese and German Surrenders of World War II; the original manuscript of "The Star Spangled Banner" in Key's own handwriting; letters by Washington, Theodore Roosevelt, John Paul Jones, Columbus, Franklin and others—all exciting, inspiring relics of our history that make the words "patriotism," "freedom" and the "American Dream" a vital, living reality.

According to John Bardwick, Jr., president of Harvey Federal Savings, "The emergency situation of today's world conditions necessitates an immediate return to the basic principles of America's tradition of freedom."

"Realizing that the study of history is all too frequently an impersonal matter, we at Harvey Federal Savings, feel that making available to the public these exact reproductions that are our national heritage will make that history intimate, personal and as real as today's headlines. Consequently, we feel privileged to be able to provide these documents at \$1.50 the complete set—exactly the amount they cost us."

Mr. Bardwick further points out that this Freedom Train program has no purpose other than that of patriotism and public service and thus the sets of documents are not only available to Harvey Federal Savings' customers but to every member of the community at cost. Churches, schools and other public-spirited organizations may have a set free of all charges simply by writing to "Freedom", Harvey Federal Savings and Loan Association, 182 East 154th St., Harvey, Illinois.

Streamlined Postal Money Order System In Effect July 2nd

Patrons of more than 42,000 Post Offices found the new and more convenient money order available Monday morning, July 2, 1951. Postmaster General Jesse M. Donaldson announced.

Principal changes in the new money order system make it possible to have a money order cashed at any of the nation's post offices or it may be collected through any bank in the same manner as the depositing or cashing of a check.

The Internal Revenue dept. has reversed its ruling on trucking fine deductions. No more income tax deductions can be taken by truck owners for fines levied in violations of truck weight and size limits.

The Postmaster General described the inauguration of the new money order system as the largest single accounting change ever made in postal history and said that the development comes after exhaustive study by the Post Office Department, the General Accounting Office, the Treasury Department and the Federal Reserve Board.

The Department urges users to remember that the new money orders must not be folded, stapled, spindled or mutilated in any way since they are to be issued on punch cards and processed by machinery.

Last year more than 300,000,000 money orders, totaling upward to five billion dollars were issued and paid by the Post Office Department.

The new money order system will be under the management and supervision of Assistant Postmaster General Osborne A. Pearson, who directs the Department's Bureau of Finance.

All new money orders will clear Federal Reserve Banks in the same manner as Treasury checks or other cash items. The Federal Reserve banks will then turn over the paid money orders to the proper regional Post Offices.

The new money order system is in keeping with the program to modernize and improve the operation of the postal service, as well as to effect economy and the better to serve the general public.

EVERETT MITCHELL

Farm Commentator, heard Monday, Wednesday and Friday, 6:15-6:45 a. m. on WMAQ, Chicago, 670 on your dial.

FOR a good many years since I have been talking for and about folks in town and on the farm I have made it a habit to shop the retail food stores. This has given me an excellent opportunity to feel the pulse of consumer buying and to learn the likes and dislikes of the great army of users of farm products. I have made it a habit to watch closely both men and women as they choose the various food items from the store shelves and to listen to their conversations.

Lately I have haunted the meat counters of the big and little stores to pick up an earful of conversation relative to the present meat situation. In many places of business the babbles were terrific. But the worst part of the whole picture is the misunderstanding by everyone concerned with what has brought it about. As usual the farmer is the goat.

Oh, that we Americans could understand each other! If we only had a greater knowledge in town of our farm problems, and on the farms a better understanding of city problems! For years I have tried to bring this about.

There is one thing I would like to emphasize. If you live in town, don't discuss agricultural problems unless you know what you are talking about. If you live on the farm, practice the same rule when you discuss the city man. Loose talk divides us. That brings comfort to our enemies. Let's bring comfort to each other instead!
